

SHIP MANAGEMENT GROUP

WE MANAGE SHIPS SAFELY

ASP's Golden Rules

These Golden Rules of Safety address ASP's identified highest risk activities, that as a Company we regularly perform.

The purpose behind the Golden Rules is to provide our employees and contractors with a comprehensive understanding of these risk areas.

ASP's Safety Culture is everyone's responsibility!

It is based upon responsible assessment (not solely by instinct) through our job safety analyses, ship/shore based training, effective fatigue management, tool box talks, onboard/shore side HSSE meetings, the implementation of procedures and mentoring.

The Golden Rules are only one component of **OUR** safety behaviour and it is observed by **YOU** at work, at home, on the road or on holiday.

ASP's Golden Rules are the:

- Permit to Work System.
- Safe Navigation of the Vessel.
- Deployment / retrieval of the Gangway or Pilot ladder.
- Mooring operations.
- Machinery Equipment.
- Management of Change.
- Handling of chemicals and hazardous substances.
- Appropriate Personal Protection Equipment (PPE).
- Contractor Induction.
- Confined Space Entry.
- Emergency Procedures.

Safety is a way of life
